

Career Assessment Request

Directions

In order to have your clients tested at the Testing Center, you must either be on the staff of the University Counseling Center, a Career Counselor at University Career Services or on the Testing Center's Approved Counselor's List.

Provide the Testing Center with a completed Career Assessment Request for each client you wish to have tested. This form may be submitted as an email attachment, faxed, or dictated over the phone if necessary. Descriptions of each test can be found on our website.

All of our career assessments can be completed by the client online from a location of their choosing. Instructions for test completion can be given either to the counselor to pass on to the client, or the client themselves when they call to pay for the assessment.

Assessments can be retrieved from the Testing Center upon request of the counselor.
